Lansing Police Department Report: Officer Dennis Bunch represented the South Precinct and distributed copies of an offense map for the following areas: Moores River to Holmes Road and Washington to Waverly Road. He wanted to call everyone's attention to a noted increase in Breaking & Entering offenses of homes (10) in the area during the month of January. Investigating officers know the crimes are being committed by two or more people because they are targeting large items and the use of a vehicle is involved. Officer Bunch asked residents to be on the look out for strange vehicles in the neighborhood and don't hesitate to call 911 if anything unusual is seen. Eaton County was featured on the 6 p.m. news for the same problem. Officer Bunch cautioned everyone to keep doors of your home and cars locked. Neighbors reported a car ran into a fence located on Boston Blvd. The incident is being investigated, but it is believed that it was due to a domestic argument.

Program: Ken Szymusiak, Director South Lansing Economic Development (SLEC), worked with Kathy Dunbar and the South Lansing Community Development Association prior to joining the Economic Development Association in November. Since joining SLEC he has been in the process of visiting all businesses located in the southern part of Lansing. He said that 60% of Lansing's land lies in the southern part of Lansing. He has been proactively visiting all businesses located in South Lansing to get a handle on what businesses currently exists there, what type businesses the area will best support as well as what, if any, problems the existing businesses are experiencing. In addition to visiting businesses, Ken who has a real estate background is applying his real estate skills in his work. He is identifying redevelopment opportunities and City provided business incentives for the Martin Luther King Blvd. and Holmes area.

Ken also identified some positives that exist in the south part of Lansing. He said many areas are doing quite well. A few of these areas are listed here. For example, the Industrial area located in the Miller Rd. & Pennsylvania area, Jolly Road to Cavanaugh area, and the Edgewood Blvd. area are all doing very well. He said Lansing Mall is not included in this assessment because it is located in Delta Township and is not considered Lansing.

He shared some of the action points for the projects on which he is working. I-96 / Pennsylvania (American Ave. – Edgewood) reconfigure the whole area - Changes to be pro business and pro resident. He is proactively working on the Brown field program as well as the sites that have been contaminated to identify possible avenues to clean up redevelop & re-utilize these properties. He wants to create synergy between businesses located downtown with south Lansing.

Ken asked the residents of Colonial Village to contact him with suggestions of what type of businesses should go in the area and/or any other suggestions they may have for stimulating growth in the area. He is also looking into creating branding for various areas .i.e. Colonial Village, Old Town, Rio Town. He is also working to develop pools of money to pour back into businesses for the purpose of revitalization/upgrades and to reward businesses for locating in the area.
